

AQUIS[®] -I

Pigment Preparations
For Water-based Applications

Our product specifications and application information are based on our current knowledge. They are non-binding and cannot be taken as a guarantee. The processing company must establish the suitability of individual products itself. As their use lies beyond our knowledge and control, we cannot accept any liability relating to the use of our products in particular application. In addition to that, the legal rights of third parties must always be considered. The specification agreed between the customer and ourselves is the basis upon which our general sales and delivery conditions are set and is the deciding factor concerning any liabilities. Our standard specification is then valid if no specification has been agreed upon between the customer and us.

AQUIS®-I

Pigment Preparations For Water-based Applications

AQUIS®-I range are water-based pigment preparations based on a specially designed pigment to surfactant ratio exhibiting a broad degree of compatibility.

The pigments used in AQUIS®-I range allow for a complete cover of the colour spectrum while ensuring that requirements such as opacity, light and weather fastness, colour accuracy and cost effectiveness are met.

AQUIS®-I range are recommended for in-plant coloration of water-borne decorative paints.
